The Benevolent Society had rather a unique way of raising money last week by leaving at most every house a miniature apron with the following poem in the pocket: (we didn't get one)

"This nice little apron
We send you today,
We want you to use it,
And this is the way.

Some money dear friend,
We must have in haste,
If you're willing to help,
Just measure your waist.

For each inch you find,
Please drop in a penny,
And if you're in style,
'Twill be a good many."

The society realized over twenty dollars.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Bradford women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Here's proof of their merit in a Bradford woman's words:

Mrs T Eastman, Main St., says: "A year ago I used Doan's Kidney Pills when my back and kidneys were in bad shape, caused, I believe, by hard work and heavy lifting. My back pained badly and when I stooped or did any heavy lifting it felt as though someone were piercing my back with a knife. My kidneys were very weak and disordered, too. I heard of Doan's Kidney Pills and got a couple of boxes. In a short time they cured me and I surely think Doan's Kidney Pills very good and recommend them highly.

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs Eastman had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

CALAMITY THEIR ONLY ASSET.

The Democratic national committee is in our midst and St. Louis welcomes it with the hospitality that has made the city famous around the world. The Times joins in this welcome.

Our guests today differ from all others who have assembled here. They can be optimistic only over pessimism. If all goes well with the country, they have no chance. Their only political hope lies in national distress, aggravated and continuing for over a year. All other guests have been painting business revival and nation-wide prosperity. These guests cannot afford to make such predictions.—St. Louis Times.

A transaction of more than passing interest to local people was the formation of a company early this week to take over the motion picture privilege in Pike Hall. The real purpose in mind is to give good shows at as reasonable prices as possible. Profit is entirely secondary.

The new company will take charge immediately and as soon as present contracts for pictures are completed will arrange to have just up-to-date and attractive films as is possible to obtain for a village of this size. The price of admission will remain the same for the present, but if the new enterprise is heartily supported by the villagers, the intention is to lower admissions if it can possibly be done, and at the same time maintain a high standard of quality. The new management requests the support of the community during the early stages of this entirely new enterprise. The present owners intend to devote whatever time may be necessary without recompense, to make the venture a success, and can only ask the entire co-operation of the townspeople. If this is given un-

UPPER GRAFTON N. E. M. P. A. ANNUAL MEETING.

More than 100 farmers attended the annual meeting of the Upper Grafton N. E. M. P. A. which met at Woodsville on Thursday, Nov. 17. Mr W H Bronson, statistician for the N. E. M. P. A., spoke of the growth of the association. He also discussed legislation concerning "filled milk" and "tariff rates on dairy products." Resolutions condemning the manufacture and sale of filled milk in the interest of public welfare were adopted. Andrew L Felker, Commissioner of Agriculture, spoke of the present unsettled condition of the industry and the necessity of strong farmer's organizations working together for a better marketing system for milk and other farm products. Attention was called to the present unfortunate loss of a market for the milk from some ten or more herds which had been continuously shipping milk for the past few years to one of the large Boston milk contractors. A committee was appointed to study needed dairy legislation. Officers elected for the coming year were: President, Fred E Gorham, South Newbury, Vt.; Secretary-Treasurer, C Warren Woods, Littleton, N. H.

"PUT THE WORLD RIGHT," SAYS PRESIDENT HARDING, "BY THE SAVING OF MONEY."

In a recent letter to Earl R O'Brien, of Chicago, President Harding goes on record as an enthusiastic advocate of the practice of saving money. He declares that saving is the only means to reestablish the world's stores of working capital, and expresses the hope that the public may take this lesson to heart. The President's letter follows:

"You ask me for an expression regarding the subject of saving money.

"I have for many years been pretty well convinced that saving money is largely a matter of habit, and people who make a good beginning at it presently discover that it is by no means impossible, and it is altogether a good thing to do. Just at this juncture in the world's and our country's affairs it is certainly one of the most useful contributions that people could possibly make to putting the world right. I do not believe there is any other way to straighten out the tangle of financial and economic concerns into which the world has been precipitated by the war, except to produce a good deal more than we consume, which means to save, and by our savings to re-establish the world's stores of working capital.

"I have no more earnest hope than that the public may take this lesson to heart and learn to save as, in view of our great national good fortune, they could be able to do."

1922 NUMBER PLATES COMING.

A carload of 1922 automobile number plates are on their way to Montpelier and their distribution will be commenced about December 1st. It has been decided by Secretary Black to allow persons who register before January 1st to have their old numbers.

After January 1 there will be no reservations, plates will be distributed as applications are received. This will satisfy the demand for low numbers and the desire of others who wish to retain their old numbers from year to year.

The shipment of 1922 plates contains numbers up to 42,000, and in addition there will be 4,500 plates for trucks and 1,500 plates for state trucks, the word "Truck" being on one and "State Truck" on the other, so that they can be distinguished readily.

The plates are made in Newport, Ky., by the National Color Type Co. Some short cuts and office improvements will be tried out by Chief Teachtout in the motor department which are expected to give quicker service.
